

Advanced Search

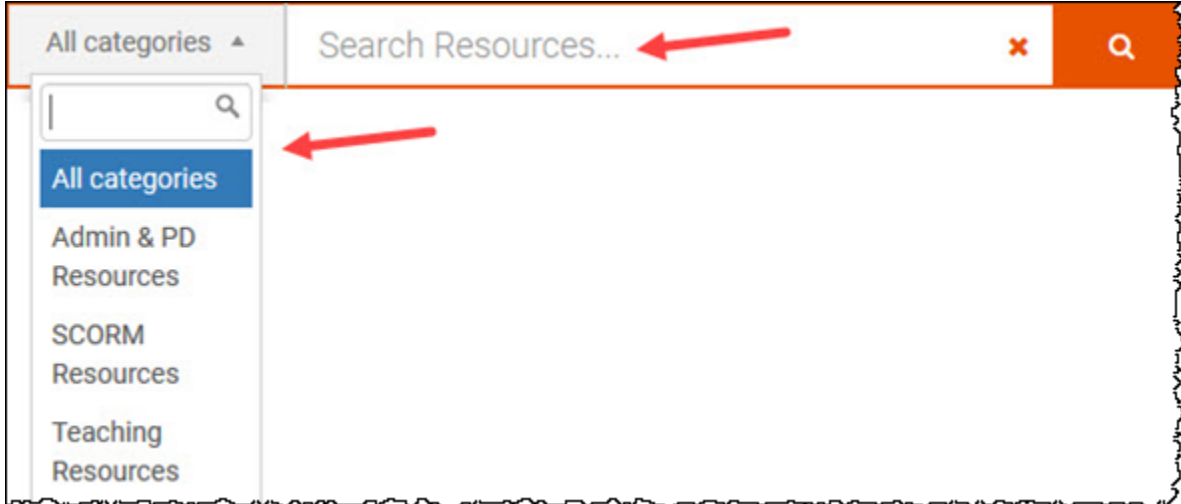

Tutela has multiple ways to access resources. The advanced search gives you the most flexibility to find what you need and discover new resources.

Accessing the Advanced Search

1. Click the **Resources** tab on the main menu of Tutela.

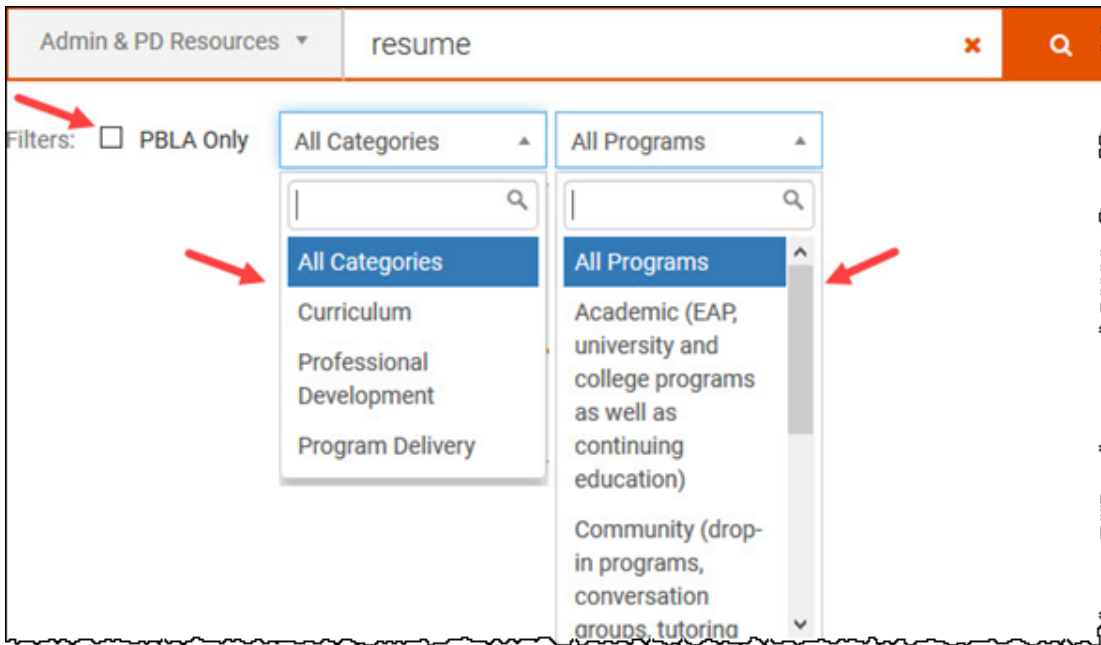

2. Click on the drop-down menu to select or search for a resource category, or to search All categories. Enter keywords in the search bar. These keywords can be subjects of interest, a title of a resource or type of resource, etc.

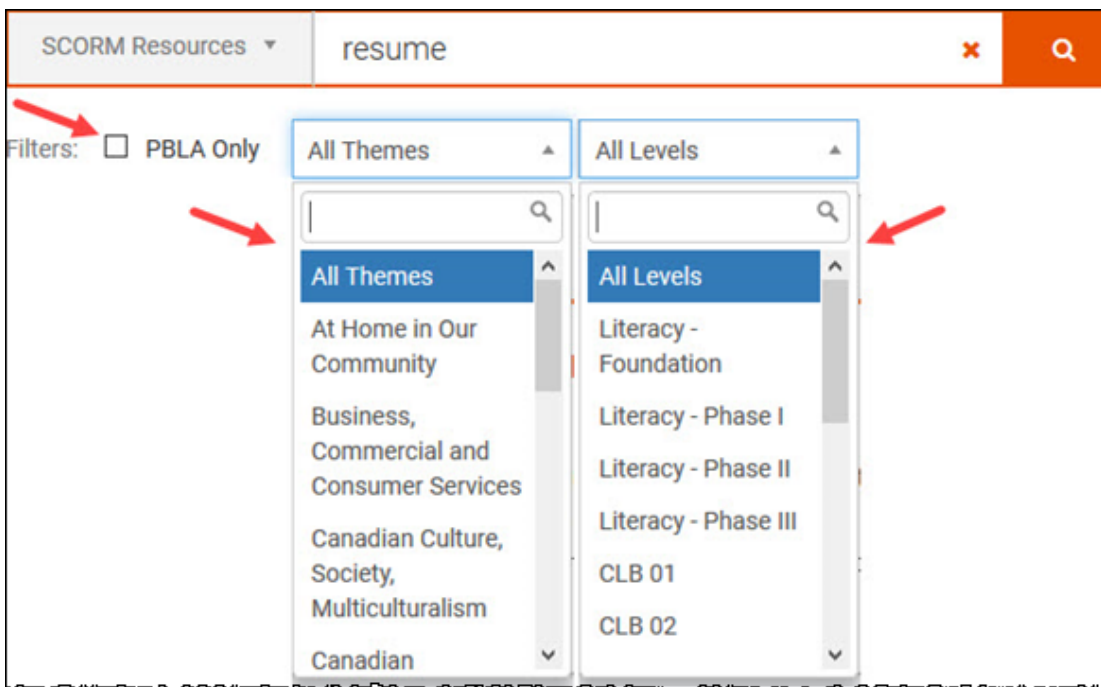

3. Click the **Search** button located on the right side of the search bar.

4. View the results. To refine the search, select a resource category. The Admin & PD Resources category allows you to check the filter for PBLA, and/or search for select Categories and Programs.

5. The SCORM Resources and Teaching Resources categories allow you to check the filter for PBLA, and/or search for select Themes and Levels.

6. Click the **Search** button located on the right side of the search bar to view the results after applying the filters.
