# Tutela Resources

Tutela has thousands of resources free for its users. These resources are shared from various individuals and organizations from across Canada. There are multiple ways to browse, search and discover resources that can be useful for you.
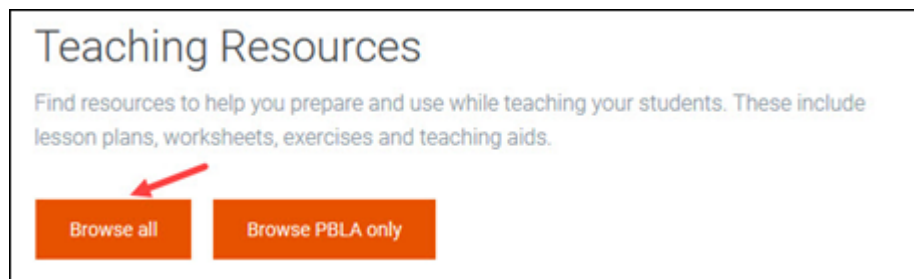

## Browsing by Category

1. Click on the **Resources** tab from the main menu on Tutela.

2. There are three main categories for browsing resources – Teaching Resources, Administrative and PD Resources, and SCORM Resources. Choose one of the options displayed for one of the categories; the Browse all or Browse PBLA only buttons will open a new page where the results can be viewed and filtered further.
   ● Click on Browse All for Teaching Resources.

   ● On the page that opens, select either an Instructional Theme or an Instructional Level to browse resources that are relevant to you. After a selection is made, a new page will open to view the results. There are options to further filter the results for Keywords and PBLA, and by Theme or Level.
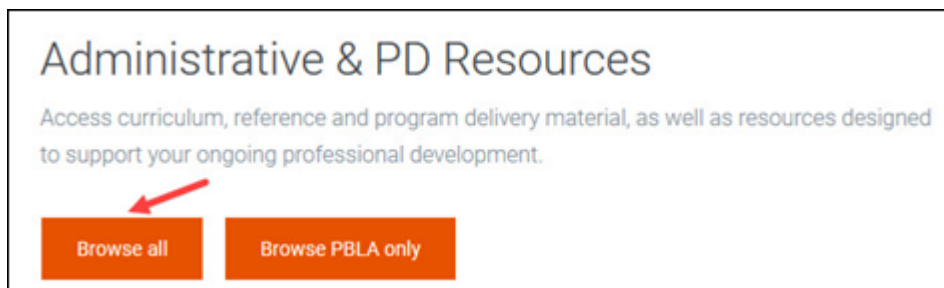

- The number of Results is also displayed. Use the navigation tools on the results page to browse the resources available.

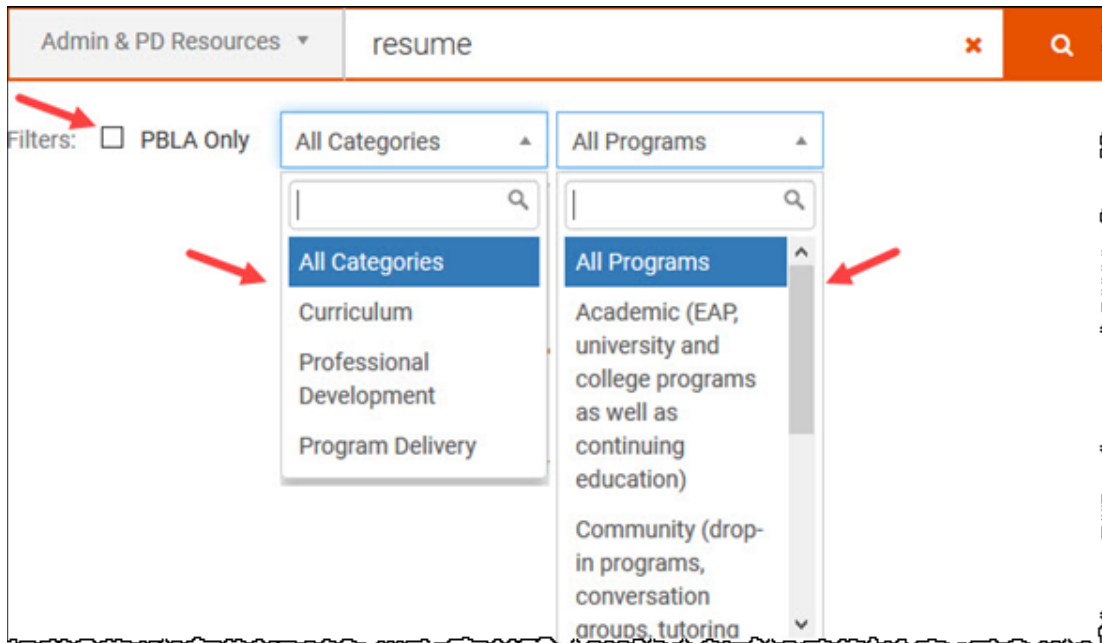

3. Return to the main categories by clicking on the **Resources** tab in the main menu.

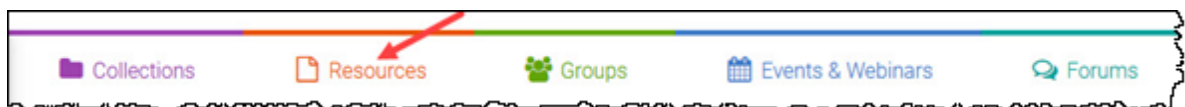

- Click on Browse All for Administrative and PD Resources.

- On the page that opens, select either a Category or a Program to browse resources that are relevant to you. After a selection is made, a new page will open to view the results. There are options to further filter the results for Keywords and PBLA, and by Category or Program.

4. Return to the main categories by clicking on the **Resources** in the main menu.

- Click on Browse All for SCORM Resources.

- On the page that opens, select either a Theme or a Level to browse resources that are relevant to you. After a selection is made, a new page will open to view

the results. There are options to further filter the results for Keywords and PBLA, and by Theme or Level.
